

LAND USE IN THE MUNICIPALITY OF RAHOVEC

LAND USE IN THE MUNICIPALITY OF RAHOVEC

Rexhep Spahiu

Abstract

This study reflects a detailed description “Land use in the municipality of Rahovec”, In this case, the natural, socio-economic characteristics of the municipality in which the work is done are analyzed. The purpose of this paper is to better present the current situation in the municipality of Rahovec, geographical location and land use. The low standard, higher unemployment of the rural population, irrational land use, degradation of agricultural land, construction of facilities on agricultural land and a general lack of awareness and a sustainable plan of urban and rural development motivated me to do so a survey.

Keywords

Land use, Arable land, Housing, Forests
